Hello and Welcome

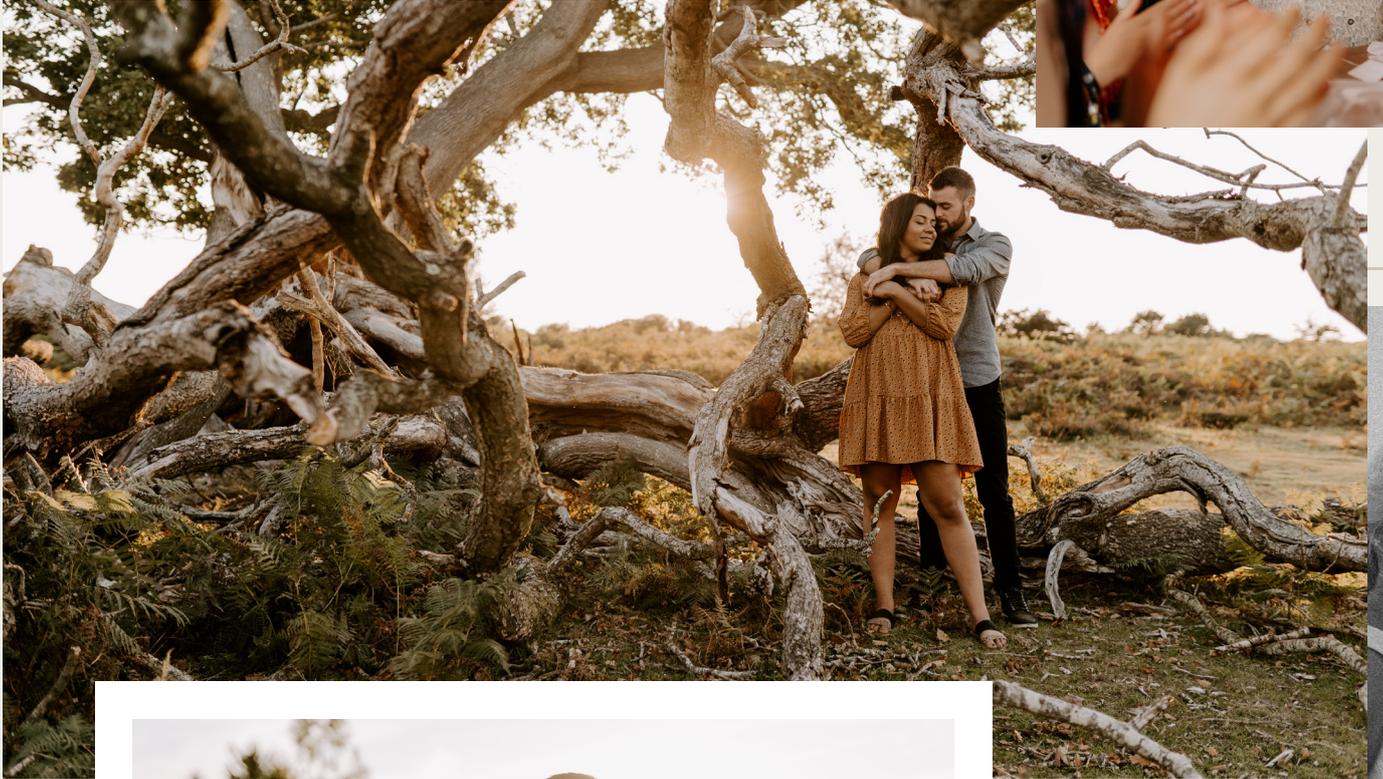

Hey! I'm Jack and thank you for getting in touch. First of all a massive congratulations to you both, getting engaged is such a special moment and the whole wedding process should be an absolute pleasure for you to go through together. Sure you will get a little stressed but it will all be worth it in the end. This is just the start of your beginning together.

As you've probably seen from my work, I absolutely love what I do. It was a childhood dream from a very young age and I've been interested in photography since I was 10 years old. Taking wedding photography on as a full time career is what dreams are made of. I get to meet awesome people like you in the process and play a part in one of the most special days of your life.

So a little bit about me and my style. I love to catch people in the moment, when they have no guard up and I get to see them for who they are. Sure, posed shots are beautiful and definitely have their place but there's something about catching someone in that moment that I think is completely priceless.

Whether that's proper belly laughing, crying with happy tears or just that look of pure love there's nothing that beats it and it makes me all warm and fuzzy inside documenting those moments. At the end of the day it's the small moments that make the memories.

For me it's all about building relationships that last longer than a single day. I want to meet you as much as possible and hear your stories because that's what I really want to tell. With me it's not about telling you what to do, it's about directing you into a situation that you naturally fall into, no awkward posing or cheesy shots. It's just you guys and me having fun and making sure you truly take the time to enjoy your day while getting high quality, creative and relaxed photos at the same time.

Services

I've kept my photography packages simple. I like to keep it super transparent so you can create a package that suits you in the best way possible. My package includes me for 10 hours which will usually start a few hours before the ceremony until an hour or so after your first dance.

On top of the packages you can add any products or services you need to customise your package however you like. I would always recommend printing your images after your wedding or couple session. There's something that just can't be explained when you've had a banger shot printed and framed on the wall or a story of your day put into a luxury bespoke designed album that you can sit down and flick back through for years to come.

Having your images quickly so you can share with friends and family is super important to me but quality images do take time to make sure it's absolutely perfect before delivering the final images to you. After your wedding day, I like to send across 20-30 photos from your day so it wets your appetite and you can use these to show friends and family but I would always recommend waiting for the final versions before printing anything.

The main thing for me is you are able to construct your own package to suit what you want to get out of your wedding photography and not be forced into anything you don't necessarily need or want. Have a look at my packages on the next page and start building your perfect day!

Second Photographer

Adding a second photographer to your day, for me, is such a worth while investment. Sometimes there can be a lot going on during a wedding day so being in multiple places at once is impossible. Having a second photographer ensures those moments that you don't see are captured. (Professional second photographers are always used)

Booking

The Booking Process

Quick. Easy. Simple

No one likes a load of paperwork especially around a wedding, trust me I know!

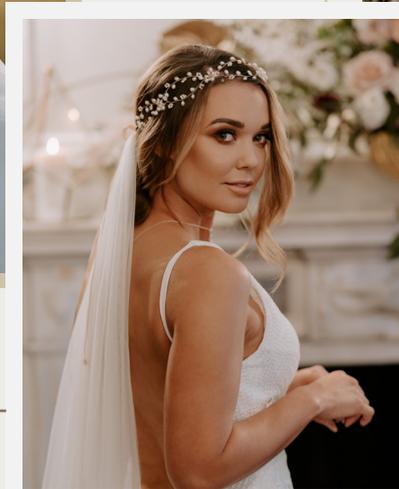

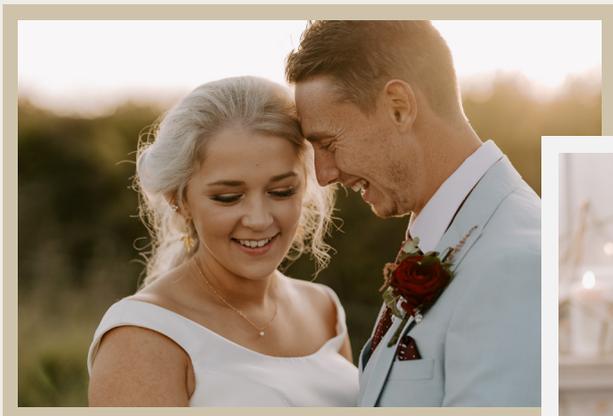

I do everything online, once you are happy and have figured out what you need included for your wedding day then all I need is a couple of details from you so I can put together a personalised contract. This includes all of my terms and conditions so you can book with complete confidence.

The booking form will be sent to you via email on an e-document, from there you can both login separately to read and sign the relevant sections. Along with the signed contract, I would just need a £300 non-refundable deposit paid to the account details provided on the booking form.

Once payment is received and the contract is completed and returned to me then we are booked, finito, done!

I will contact you again to organise a couple shoot or around 1 month before your wedding to organise a time we can meet to discuss your timings for the day. At this point I can make a schedule for the day so I know everything will be covered correctly.

When you are ready just head to www.jackaldridgephotography.com/bookingform to complete a booking for, if you have anymore questions just let me know.

FAQ's

Have you got insurance?

Absolutely, I have public liability and professional indemnity insurance to cover your wedding day. Sometimes venue's ask for proof of this so by all means let me know and I can send over a copy.

What happens if I am ill on your wedding day?

This is such a big one and I get asked this all the time and for good reason. As a sole trader it's very difficult for me to guarantee you anything however I do have measures in place to mitigate the effects if something like this were to happen. I am part of local and UK wide wedding photographer networks so this means that if I became too ill on your wedding day to take photographs I would reach out to these people to cover the wedding. In the event of this happening, all money paid to me would be transferred directly to the new photographer.

If you have added a second photographer to your package then they would then become the lead photographer and I would look to source a new second photographer for your day. I would still do the editing myself so that your images retain the tones and colours from my style.

How long does it take to get my images?

Within 48 I will send over 20-30 preview images for you to have a look at and share with family. Your complete gallery will be ready in a maximum of 12 weeks (usually a lot quicker) but it depends on the time of year to turnaround times.

We aren't really posey people, does that matter?

That's absolutely fine! I'd say 99% of people actually don't feel comfortable in front of camera and that's okay, I'm included.

My style is very natural and focuses on natural moments so when I say we are going for some couple shots this won't be me telling you to stay still and put your hand here and put your arm there. I like to think of my style as more directional. We will go for a walk around your venue, find some beautiful locations to stop at and from there, I will simply ask you to just hold each other or hold hands and walk towards the camera. Trust me, I would never ask anyone to do anything I wouldn't.

Can I view previous albums?

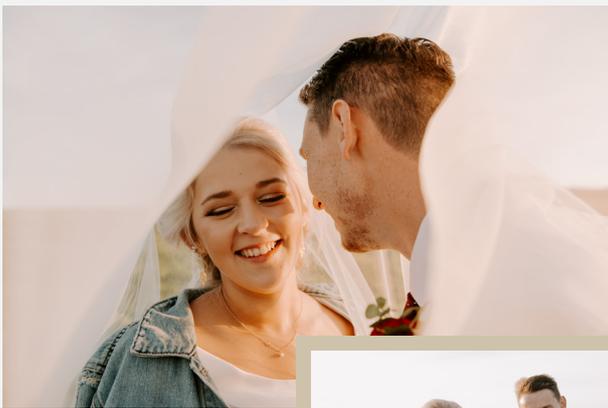

Definitely, I think it's super important to see these so just ask and I can send some examples over.

Hannah & Dec Said ...

It was so lovely having Jack as our wedding photographer! From the first email when we made contact, through to the wedding day and afterwards he's been so lovely, knowledgeable and professional. We decided to have an engagement shoot to ease us in and this was such a fun evening spent in the sunshine with some gorgeous photos! On our wedding day Jack felt like a friend and our guests all commented on how lovely he was. Our photos are beautiful and he truly captured our relationship and the fun we have! We can't recommend Jack enough as a wedding photographer! x

Georgie & Graham Said ...

I cannot recommend Jack enough, from booking, to the pre wedding meeting, the day itself and getting the photos to us so quickly. Jack made me feel at ease and was so professional, kind and fun! Nothing was too much trouble! He has an eye for detail and captured everything and more from our special day! 100% choose Jack for your wedding day, you will not be disappointed!

Jess & Matt said ...

Jack, we can't thank you enough for the amazing photos you did for us. You fitted into our day perfectly, getting along with everyone and joining in on all the fun and laughter. You were a delight to have on our wedding day and the memories you have given us will be treasured forever. Thank you

Antonia & Laith said ...

Jack was the first supplier we booked when we began planning our wedding and when it was postponed from July to October in 2020 we made sure to check with Jack's availability so we could ensure he was still part of our day! Jack made us feel relaxed and had us laughing throughout helping us feel relaxed in couple shoots and capturing the most beautiful candid moments! The photographs are all we hoped for and more and bring us such joy to look over and share with our family and friends. We can't thank him enough for capturing our day so perfectly!
